

**YOUR  
HEALTH  
MATTERS,  
AT HOME  
& AWAY**

## Our Mission

RPM Pharmaceuticals was founded on the premise to provide every individual high quality clinical pharmaceutical and preventative care at low cost using evidence-based and innovative medication therapy services. With the individual and physician, we work towards improving their health outcomes.

AT HOME & AWAY**

## Who We Are?

RPM Pharmaceuticals provides every individual access to a personal pharmaceutical care provider to compliment their acute and chronic disease care. We believe that the independence to take care of one's health is a vital factor to an improved quality of life. Using effective Medication Therapy Services we are able to continuously monitor an individual's health and become an important extension of their physician and healthcare team. Our mission is to provide personalized Medication Therapy Services at low cost cooperatively with an individual's healthcare team for their chronic disease care management.

## What is Remote Patient Monitoring?

Remote Patient Monitoring (RPM) is a term used to describe the digital monitoring by a qualified healthcare provider of test results using FDA approved clinical devices to manage chronic diseases like diabetes, hypertension, heart failure, and COPD.

## What does Medication Therapy Services consist of?

- Preventative Care Management
- Comprehensive Medication Reviews
- Face-to-face Appointments & Telecommunication
- Remote Patient Monitoring (RPM)
- Immunizations
- Personalization of Care
- Cost-effective Interventions
- And more.....

## Where will these services take place?

- From the Home
- Electronic Communication
- Office Visits

## Why Do This?

All services are done in collaboration with the physician.

- Personalized Medicine = Better Outcomes
- Healthcare Teams = Better Quality
- Independent Cheap Care = Better Quality of Life
- Safer Medication Use = Greater Savings in Total Cost of Care

“Everyone deserves to have someone who watches over their healthcare needs day-to-day as they go about the lives.”

## Is This Covered by Insurance?

- Yes, RPM is covered by Medicare, Medicaid, and some Private Insurers.
- Glucometer and Blood Pressure Machines are Covered under Durable Medical Equipment.
- Copayments may apply for some Healthcare Plans.
